

## CAREER PLAN WORKSHEET

Chem396 Fall 2017

After completing the Science Careers Individual Development Plan (IDP) at <http://myidp.sciencecareers.org/> list the top 3 career matches that were given, and the associated percentages on your interest/skill set match.

Career Path	Skills Match	Interests Match
1.		
2.		
3.		

Do you agree or disagree with the results? Why or why not? Write a few sentences on this.

Visit <https://www.sandiego.edu/careers/> Have you had any experience in the past with the Career Development Center? If so, briefly describe. If not, list something you learned from visiting the website.

Summarize what your post-USD plans/career directions or thoughts are at the moment (these might change, of course). I am compiling this info for our class in Week 11. Folks from the Career center will attend so if you have questions you'd like to ask/information you'd like, record them here.
