

CHEM151 Fall 2018 [Kua]

Open Classroom Reflection Assignment

In a one-page reflection paper, be sure to cover the following points with regard to the Open Classroom session that you visited.

1. Which open classroom did you attend?
- 2a. What is one example from the session that highlighted the integration of two or more disciplines?
- 2b. Based on this example, how would you define “integration” within the liberal arts?
- 3a. What did you find most interesting from the session overall?
- 3b. Why did you find this interesting?

Reflection papers will be evaluated based on details provided, thoughtfulness, and editing (grammar, spelling, typography), and will be included in your participation grade. Papers are due Monday, Nov 5, by 8am, either in class (hard copy), or e-mailed to me. However, I strongly recommend that you write this up within 24 hours of attending a session. You’ll find that saves you time because it will still be fresh in your memory!
