

Mission Bay

Water and Sediment Testing Project

Agreement 295495

Final Report

January 2004

Department of Marine Science and Environmental Studies
University of San Diego

CONTENTS

Title Page	1
Contents	2
Section 1. Scope of Work	4
Goals	
Tasks	
Section 2. Background	10
Circulation	
Water Quality	
Plankton	
Sediment Quality	
Benthic Community	
Large Fauna	
Section 3. Methods	13
Sampling Sites	
Water Column	
Plankton Sampling and Analysis	
Benthic Sampling and Analysis	
Toxicity Testing	
Section 4. Results – Water Quality	25
Precipitation	
Hydrography	
Nutrients	
Metals	
Section 5. Results – Plankton	35
Phytoplankton	
Zooplankton	
Section 6. Results – Sediments	52
Grain Size Distribution	
Water Content	
Sediment Chemistry	

Section 7. Results – Benthos	76
Abundance	
Species Composition	
Diversity	
Section 8. Results – Toxicity	82
Amphipod Results	
Bivalve Results	
Sediment Characteristics	
Section 9. Conclusions	96
Water Quality	
Plankton Community	
Sediments	
Benthic Fauna	
Sediment Quality	
Section 10. References	100
