

1.
 - (a) What is the SHA256 hash value for the string “Tadeusz Dlugolecki” (in hexadecimal)?
 - (b) (100 Bonus Points) Find another string that has this hash value.
 - (c) If you were unable to answer the previous question, what is the name of the property of SHA256 that makes this hard?
 - (d) Find the student in your class whose hash value for his/her name is 01b5ac1ea8567ae125ca1fc1c41888ac43090089fc9ada5bd34bc298711b9063.
2. Suppose you recover the following message fragment: 3155799138172308481238174147054471993925859643918524923828446515091203475693819249001974885377342622417978236 from Alice to you.
 - (a) Alice used your public enciphering key. Decipher it knowing your deciphering private key is $d = 5058194907219099197868129185254779389869485496196001377612678736794209585895258852399288427630822432467555977$ and $n = 17194153476374283221426823315714880261615788659414382185726595258781383442202711183438741188641351314928463151$.
 - (b) The following numbers are all in hexadecimal for your convenience. Alice also sends used SHA256 to hash the message and enciphered that with her private key and sends you the ciphered hash which is $834e6da1144063d45fef7065d13c19b32d2e74eafeb909344b99bd47dd093686f449be2a2311df1353bed0713$. You look up her public decipher key it is $d = 1a23a71f33a2d21d7c1967f6cba236e586f59cb17cbcd0e29c3f67868ee2af24d89045331b877223f96c5765b75$ and $n = 2634feb1de8dff65e6a342e92963cf300f73be1b63a05a161cba1fc265ac322072af6be658c801d03e1a5b899e5$. Verify it came from her. (Remember she is hashing the original message which may have spaces in it).
3.
 - (a) Express the number 867 in binary.
 - (b) What number has the hexadecimal expression 1048ce.
4. One day I find your credit card and look you up and call you to tell you I have it. You ask me to send it to you but then I realize maybe this is another Tadeusz Dlugolecki. So I ask you if you know your credit card number so that I can verify it is you. You say you do, but won't tell it to me since you don't know who I am or if I even have your credit card number. I won't read it to you for the same reason. What can we do? Hint: Think about what we have done recently in class.
