

1. Break the message:

LNCW BOOG CWWC VVI

knowing it was encoded with an affine cipher and contains the word(s) “silly”.

2. Encipher “*Bengals*” using hill the key: $a=25$, $b=16$, $c=14$, $d=15$. Do the calculation (mod 26).
3. (Wait for Wednesday) Decipher “*DZW!WY*” using hill with matrix: $\begin{pmatrix} 26 & 14 \\ 23 & 5 \end{pmatrix}$. This calculation is done (mod 29). Note that the mod is different than the previous problem.
4. (Wait for Wednesday) Find all primes p for which $\begin{pmatrix} 3 & 5 \\ 7 & 3 \end{pmatrix} \pmod{p}$ is *not* invertible.
5. (Wait for Wednesday) Find all values of the b with $0 \leq b < 25$ such that $\begin{pmatrix} 1 & 1 \\ b & 1 \end{pmatrix}$ is invertible (mod 26).
6. Find the One Stop Student Center and take a picture of yourself there and email it to me at cparker@sandiego.edu.
7. Look on the website for sporting events at USD. Choose an event in the future that you would be most likely to attend and write that down. I won't make you actually go to the event but consider doing it, it builds school spirit.
